

## Outreach/Scope

In the past year, the **Center for World Music** sponsored 31 artist-teachers and 18 ensembles-in-residence of 19 different music and dance traditions from around the world: Asia, Africa, Latin America, Europe, and America. This program has brought weekly instruction in music and/or dance to some 2,500 students in the San Diego area. Adding students who have attended assemblies and performances sponsored by the program, the number reaches nearly 5,000.

Upwards of 70% of our participants are in low-income, underserved areas of San Diego. We find that the high-quality experiences in the performing arts provide vehicles of expression for populations that struggle for a voice.

In the past year, the CWM provided weekly world music and dance classes in the following San Diego area schools:

- **Bird Rock Elementary**
